

VENTURA BENNELONG AUSTRALIAN EQUITIES CORE MODEL

April 2024

About the Fund:

The Bennelong Australian Equities Fund is a high conviction 'core' fund. It aims to grow investment value over the long term via a combination of capital growth and income, by investing in a diversified portfolio of Australian securities. The Fund typically holds 25-50 securities across the spectrum of the Australian share market (primarily from the S&P/ASX 300 Accumulation Index).

Benefits of the Fund:

- Provides investors with appropriate diversification across the ASX
- Competitively priced, with no performance fees
- Track record of adding value by outperforming the market over the long term
- Managed in accordance with BAEP's robust, disciplined, and proven investment philosophy and process

About:

BAEP Bennelong Australian Equity Partners (BAEP) is a boutique fund manager investing in Australian listed equities. It was founded in 2008 by Mark East, in partnership with Bennelong Funds Management. BAEP is a genuinely active, award-winning and highly-rated fund manager with an experienced and performance oriented team. Its investment philosophy is to selectively invest in high quality companies with strong growth outlooks and underestimated earnings momentum and prospects. Its investment process is research-intensive, with a focus on proprietary field research, and is supported by macro-economic and quantitative insights.

About Bennelong Australian Equity Partners

Bennelong Australian Equity Partners (BAEP) is a boutique fund manager that invests in Australian listed equities. The business was founded in 2008 by Mark East in partnership with Bennelong Funds Management. It is now established as an award winning and highly rated fund manager. BAEP manages funds on behalf of retail and institutional clients, as well as on a pro bono basis for charitable organisations.

Investment philosophy

BAEP believes that high quality companies with solid growth prospects are best positioned to grow value over time. The team also believes that stocks are generally priced to reflect the market's expectations of future earnings, and that it is companies' earnings performance relative to expectations that drives investment returns. BAEP seeks to invest selectively in those companies whose earnings growth potential is underestimated by the market. An actively managed portfolio comprising a hand-picked selection of stocks with prospects that are potentially more favourable than perceived should deliver attractive returns over time.

Investment style

Managing funds actively and according to a fundamental 'core' style, BAEP does not confine itself to selecting stocks according to any one investment approach. Instead, the team focuses on companies that exhibit an attractive combination of quality, growth and value attributes, with an underlying bias towards quality.

Investment process

BAEP's investment process is based on fundamental bottom-up stock picking. At its core, BAEP's process has a focus on extensive on-the-ground and other proprietary research and analysis that includes a comprehensive program of meetings and engagement with listed companies, their competitors, suppliers, customers, regulators, and other relevant industry contacts. Individual stock analysis and portfolio construction is supported by macroeconomic and quantitative research and insights.
