Investment Objective

This suits investors with a minimum three-year timeframe or those who seek a diversified portfolio of interest bearing and growth asset classes, with an emphasis on interest bearing assets. This portfolio also suits investors seeking a lower level of investment value volatility, and therefore willing to accept lower potential investment performance, hence the 70 percent exposure to defensive assets (cash and fixed interest).

Investment Strategy

A low cost diversified portfolio of securities with an average exposure of 30% to growth assets and around 70% to defensive assets. The portfolio is designed for investors seeking relatively stable returns over the medium term with the potential for some long-term capital growth.
