01 INVESTMENT PROFILE

INVESTMENT STRATEGY

An actively managed, diversified portfolio spanning defensive asset classes — cash and fixed interest — and growth asset classes such as Australian and global equities, property and infrastructure. The strategic asset allocation is 50% defensive and 50% growth.

INVESTMENT OBJECTIVE

To deliver returns above the CPI + 2% benchmark over rolling five-year periods, net of investment management fees. Designed for investors with a minimum five-year timeframe seeking a modest level of capital stability while accepting moderate volatility for commensurate performance, hence a 50/50 split of growth and defensive assets.
